

We deserve the Oscar and contempt of German and  
English farmers - a great nation? or a cruel, heartless  
Dear Commissioner Friedman, money driven & rotten, one. Help small farms. End this  
dangerous cruelty. R.H.

It is good to hear that the FDA is finally going to restrict the feeding  
of dead cows to live cows. It is unconscionable, however, that your  
new policy *fails* to take into account the dangers posed by feeding dead  
and diseased pigs, horses, and chickens to cows and other farm  
animals. *How many Americans will have to die from Mad Cow Disease  
(BSE) before the FDA stops this deplorable and deadly practice?*

I join with the Humane Farming Association in calling for an  
immediate nationwide ban on the use of dead animals in livestock  
feed.
